

### Dr Fiona Jacklin—On Sabbatical

Dr Fiona Jacklin is taking a 6 month sabbatical from March to September 2018.

Fiona's been a partner for 18 years and is looking forward to taking a short break .

She plans to travel round the Canadian Rockies in an RV in the summer with her husband and three teenage daughters, as well as spending time at home in the UK.

**Dr Belinda Lewis-Jones** joins us for six months and will be responsible for Dr Jacklin's patients whilst she is away. She will be available all day Tuesday, Wednesday morning and Friday all day.

### Introducing Dr Nicola Wood

I studied in Wales before moving back to the South Coast for my GP training in Portsmouth. I completed my GP training in 2017 and joined the Swan Medical Group to be part of a large and happy team who care about their patients. I live in the South Downs and enjoy walking, cycling and swimming.

### Free Women's Health Event

This is a public event, held in collaboration with our Patient Participation Group (PPG)

**We will have several guest GP speakers, who will discuss topics including:**

- **Breast and Cervical Cancer,**
- **Menopause/HRT**
- **Osteoporosis and much more**

**Saturday 21st April 0900-1200**

**The Avenue Pavilion, Petersfield,  
please contact us to book your free place.**

### Dr Richard Kershaw—Aviation Medical Certification

Dr Kershaw is now offering an Aviation Medical Certification Service from Swan Surgery and also from consulting rooms at Goodwood Aerodrome.

Richard can certify:

- Class 1 renewal/revalidation
- Class 2 initial/renewal/revalidation
- LAPL initial/renewal/revalidation
- Cabin crew initial/renewal/revalidation

**Call Swan Surgery for more info and to book**

## Swan Medical Group in partnership with Saving Lives Together

Swan Medical Group is pleased to announce a partnership with Saving Lives Together (SaLT), a community based CPR and defibrillator awareness charity headed up by their Nurse Supervisor Aisa Fraser, assisted by a team of dedicated local volunteers including Nurse Jackie Predeth.

The vision of the charity is to increase the likelihood of survival rates of out of hospital cardiac arrest from around 7% at present in the UK to 36% and above as seen in the Netherlands. This can be achieved by teaching communities about the chain of survival, how to call for help, perform CPR, use defibrillators and that to act quickly can save someone's life. Spreading awareness of defibrillator location and use as well as practical CPR and defibrillator skills are key to this, and SaLT are training local businesses as well as community members on how to use the defibs stationed within the community.

Please have a look on their Facebook page [www.facebook.com/savinglivesogether.co.uk](http://www.facebook.com/savinglivesogether.co.uk) for forthcoming public events and more information on how to book a training session within your community or business. There are also opportunities to volunteer or donate, contact the team on [info@savinglivesogether.co.uk](mailto:info@savinglivesogether.co.uk) to learn more.

### Prostate Cancer Awareness Month

In the UK, about one in eight men will get prostate cancer at some point in their lives.

Prostate Cancer UK is the largest men's health charity so in March **Help Stop Prostate Cancer being a Killer** by fundraising, campaigning and donating! Visit [www.prostatecanceruk.org](http://www.prostatecanceruk.org)

### Ovarian Cancer Awareness Month

The earlier ovarian cancer is diagnosed and treated, the better the chance of a cure. This March **Start Making Noise** so we can make sure women have

the best chances of survival.

Visit [www.targetovariancancer.org.uk](http://www.targetovariancancer.org.uk) to fundraise, campaign and donate.

### How Many Patients?

Did you know, our list size now stands at **19,966** patients since we merged Swan Surgery and Liphook Village Surgery!

### Rate Our Service

We want to hear from you! Visit our NHS Choices Pages to rate our surgeries, staff and service.
